PROFESSIONAL SUMMARY

Data-driven AI Specialist and Analyst with expertise in statistical modeling, predictive analytics, machine learning, and full-stack development. Proven track record delivering data analysis solutions for global enterprises including BCG, CBRE, and Skyscanner through project-based consulting engagements. Skilled in Python, SQL, data visualization, CRM analytics, and GenAI automation. Multilingual professional (Arabic, English, German, Turkish, Japanese) with strong cross-cultural communication and client-facing experience across European and Middle Eastern markets. Seeking to leverage analytical and technical capabilities in an AI Data Analysis role.

CORE COMPETENCIES

Data Analysis & AI: Python, Pandas, NumPy, SQL, Machine Learning, Predictive Analytics, Statistical Modeling, Feature Engineering, Data Visualization, A/B Testing, Natural Language Processing, Generative AI, Prompt Engineering, Contextual Engineering

Development: HTML5, CSS3, JavaScript, TypeScript, React.js, Node.js, Express.js, REST APIs, JSON, Git, GitHub, Agile, Scrum, Kanban

CRM & Business Intelligence: Salesforce, HubSpot, Zoho CRM, CRM Automation, Marketing Automation, Lead Scoring, Customer Lifecycle Analytics

Cybersecurity: Security Fundamentals, Ethical Hacking Concepts, Vulnerability Assessment, Secure Coding Practices

AI & DATA ANALYSIS PROJECTS

Data Analyst - BCG (Boston Consulting Group) | Project-Based Engagement

bcg.com

- Executed complex data analysis tasks for BCG, processing large datasets to extract strategic business insights and market trends
- Applied statistical modeling and predictive analytics to support data-driven decision-making for consulting engagements
- Developed automated data pipelines using Python (Pandas, NumPy) to streamline data cleaning, transformation, and reporting workflows
- Delivered executive-level dashboards and visualizations communicating key performance indicators and market opportunities

Data Analyst - CBRE | Real Estate Analytics Project

cbre.com

- Performed data analysis for CBRE, the world's largest commercial real estate services firm, focusing on retail rent and market trend analysis
- Analyzed global real estate portfolio data to identify pricing patterns, occupancy trends, and revenue optimization opportunities
- Built automated reporting systems to streamline repeatable professional tasks, reducing manual data processing time and improving accuracy
- Created comprehensive market intelligence reports supporting investment and leasing decisions

Data Analyst - Skyscanner | Travel Market Intelligence Project

skyscanner.com

- Conducted competitive market analysis and demand forecasting for Skyscanner using historical travel industry datasets
- Applied machine learning techniques and feature engineering to predict pricing trends and seasonal demand fluctuations
- Designed interactive data visualizations to present findings on market positioning, customer behavior, and revenue optimization
- Collaborated on cross-functional data initiatives to improve user experience through data-driven product recommendations

AI & GenAI Automation Specialist | Advanced Training Projects

Build Fluency in Prompt & Contextual Engineering | How to Use GenAI to Streamline a Repeatable Professional Task

- Completed intensive training in Prompt & Contextual Engineering, designing enterprise-grade AI prompt frameworks for business intelligence
- Engineered contextual prompts for data analysis applications, improving output accuracy and relevance through iterative refinement
- Applied GenAI methodologies to streamline repeatable professional tasks including automated data extraction, report generation, and quality assurance
- Integrated AI-powered automation into CRM workflows (Salesforce, HubSpot), enhancing lead scoring accuracy and customer lifecycle analytics

PROFESSIONAL EXPERIENCE

Full Stack Developer (Freelance & Advanced Training) | Jan 2025 - Present

- Design and develop full-stack web applications using React.js, Node.js, Express.js, TypeScript, and REST APIs with focus on data visualization dashboards
- Implement AI-powered features and predictive analytics modules for scalable business applications
- Manage end-to-end development lifecycle using Git, Agile, and Scrum methodologies; maintain comprehensive technical documentation
- Build responsive, accessible UIs and optimize application performance for cross-browser compatibility and WCAG standards

Sales Manager - German & English Departments | Elif Inshaat Real Estate | 2022 - 2024

- Led data-driven sales strategy for German and English markets, exceeding targets by 15% and growing German-market revenue by 25%
- Analyzed CRM data (Salesforce, HubSpot, Zoho) to optimize lead follow-up rates by 35% and reduce sales cycle length by 20%
- Developed automated reporting dashboards tracking conversion metrics, client retention, and revenue performance for executive review
- Managed multilingual sales teams across European markets, leveraging data insights to improve team productivity and client acquisition

Conversion & Retention Specialist | Arena Finance | 2020 - 2021

- Converted 200+ qualified leads monthly using data-driven outreach strategies and CRM analytics to identify high-probability prospects
- Achieved 85% client retention rate by analyzing user behavior data and optimizing onboarding funnels through A/B testing
- Built A/B testing frameworks to evaluate campaign performance, resulting in 30% user growth and improved conversion efficiency

- Automated customer lifecycle workflows using CRM platforms, improving operational efficiency and ensuring data accuracy across reporting systems

Conversion Agent | L-QIF Limited Qualified Investor Fund | 2018 - 2019

- Converted 50-75 qualified investor leads monthly through targeted data analysis and personalized outreach based on investor profile segmentation
- Analyzed investor profiles and market data to improve conversion efficiency and portfolio matching accuracy
- Maintained detailed CRM records and generated weekly performance reports for senior management and compliance teams

EDUCATION & CERTIFICATIONS

- AI Specialist Certificate - No Limits Academy | 2025
- Frontend Web Development Certificate - No Limits Academy | 2025
- Cybersecurity Specialist Program - In Progress | Expected 2026
- TOEFL - English Language Proficiency
- German Language Certificate (B1) - American Time Academy | 2023
- Selling Techniques Certificate - 2019
- Body Language & Non-Verbal Communication Certificate - 2020
- Higher Education (Partial Studies) - Nuclear Physics (2 years), English Literature (2 years)

LANGUAGES

Arabic (Native) | English (Fluent) | German (Fluent/B1) | Turkish (Fluent) | Japanese (Intermediate/B1)

PROFESSIONAL DEVELOPMENT

Active contributor to technology communities, AI research forums, and cybersecurity learning initiatives. Strong interest in open-source development, ethical AI, multilingual UX design, and data-driven decision-making.
